

## Nordic gutter order question list

To help you place the correct order for your gutter parts, here are a few questions to assist you with that.

1. How many and how long runs of gutter are you looking at doing?

---

2. Are there corners involved? Inside or outside and how many?

---

3. Is the fascia board vertical (plumb) or is it perpendicular to the roofline?

---

4. How many down spout locations do you need? How tall is your wall?

---

5. Are the downspouts going into ground pipes? Perhaps add DTE and CHUTE?

---

6. How large is the overhang, from your siding to the fascia board?

---

7. What color are you thinking of? White, black, dark bronze, anthracite, or silver?

---

8. Can you provide cell phone photos of the house? YES  NO

For new construction homes, multi family or commercial buildings, please send us the elevations and roof plans. Do not hesitate to call or write with any questions.

Thank you,

Jan Tomberg
